

**Salvemos Cala Mosca** is an association whose aim is to preserve the natural environment of Cala Mosca, the last unbuilt kilometre on the coast of Orihuela, from the danger of being destroyed by the urbanistic abuse of the construction company Gomendio. They intend to build more than 2000 houses in an area already saturated and without the services provided. If we allow them to build, not only will we lose this natural area with protected species forever, but the quality of life in Orihuela Costa will be seriously damaged.
